LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Information Technology undergraduate with hands-on experience in Python, Java, web development, AI/ML, NLP, and full-stack application development. Experienced in building practical software projects involving recruitment automation, AI-powered applications, document processing, and web platforms. Interested in software development, Python development, web technologies, and AI/ML, with a strong focus on learning and building practical solutions.

EDUCATION

B.Tech in Information Technology

Government Engineering College Idukki

4th Year

APJ Abdul Kalam Technological University

Diploma in Computer Engineering

AKNM GPTC Thirurangadi

2021 – 2024

TECHNICAL SKILLS

Operating Systems	Linux, Windows
Programming	Python, C, C++, Java, Dart
Web Development	HTML, CSS, JavaScript, React, Next.js, TypeScript, Django
Backend	Python, Flask, FastAPI, Uvicorn
AI / ML	Natural Language Processing (NLP), OCR, AI Application Development
Document Processing	PyTesseract, PyPDF, PyMuPDF, OpenCV, NumPy
Databases	MySQL, SQLite, PostgreSQL
Concepts	Object-Oriented Programming, Data Structures, Problem Solving
Tools	Git, GitHub, VS Code, Prisma, CMake
Authentication	JWT, bcryptjs, Cookies
Other	REST APIs, Responsive Web Development

INTERNSHIPS

AI & Machine Learning Intern

Verdant IT Solutions, Kochi

May 2023 – June 2023

- Worked on a machine learning project and gained practical exposure to AI and ML concepts.

Python Intern

Vitez Lab, Calicut

May 2022 – June 2022

- Gained practical programming experience using Python during the internship.

SELECTED PROJECTS

TrustHire – Smart & Secure Hiring Platform

Next.js, React, Python, FastAPI

- Developed a recruitment automation platform designed to make hiring more efficient, transparent, and secure.
- Implemented AI-assisted document processing using Gemini API, OCR, PyTesseract, PyMuPDF, OpenCV, and NumPy.
- Built authentication using JWT and bcryptjs with SQLite for development.

HR Analytics – Intelligent Recruitment System

Python, Flask, NLP, spaCy

- Developed a recruitment system that analyzes and ranks resumes according to job requirements.
- Used NLP techniques to assist automated candidate screening and recruitment.

CodeGPT – AI Programming Assistant

Next.js, React, TypeScript, OpenAI API

- Built an AI-powered programming assistant that explains coding problems and generates programming solutions.
- Designed and implemented the project independently.

HireHive – Hiring Platform

Python, Django

- Developed a platform where companies can post jobs and internships and candidates can apply for opportunities.

ADDITIONAL PROJECTS

NeverMiss – Smart Event Reminder

C++, Dart, Python, CMake

- Currently developing a personal reminder platform for birthdays and important occasions.
- Designed to generate personalized messages and greeting cards for important events.

Netflix Clone

HTML, CSS, JavaScript

- Developed a responsive Netflix-inspired web interface using HTML, CSS, and JavaScript.

CERTIFICATIONS & COURSES

- **CS50 – Introduction to Computer Science**, Harvard University

Currently Pursuing

ACHIEVEMENTS & ACTIVITIES

- **Sergeant**, NCC, AKNM GPTC Chelari
- **College Volleyball Member**, Government Engineering College Idukki

LEADERSHIP & RESPONSIBILITY

- **Coordinator**, NAUKA24 – State-Level Technical Fest

LANGUAGES

English | Malayalam | Hindi

AREAS OF INTEREST

Software Development | Python Development | Web Development | Artificial Intelligence & Machine Learning
